

ALLTECH AV

Company Background

Event technology & production, done properly.

15+ years · Sydney · Premium AV for corporate, brand & live events

In one line

Alltech AV is a Sydney-based event technology and production company that delivers high-end audio-visual experiences where the tech just works — and clients feel supported from first conversation to final pack-down.

WHO WE ARE

Alltech AV is a Sydney-based event technology company with over 15 years' experience delivering high-impact audio-visual production for corporate events, conferences, brand activations, concerts, and large-scale shows.

We provide full-service AV solutions across audio, video, lighting, high-resolution LED screens, staging, and rigging — handling everything from design and pre-production through to on-site delivery and support.

We work with leading brands, agencies, venues, and institutions to create immersive, reliable event experiences. Our reputation is built on reliability, creative problem-solving, attention to detail, and a genuinely client-first approach. We're known for doing the things other AV suppliers say can't be done — and for caring about the outcome of every job, not just the invoice.

What We Deliver

 Audio PA systems, sound design, and live mixing for any scale of room or show.	 Lighting Event lighting design, rigging, and programming that sets the mood and moment.	 LED Screens High-resolution LED walls and processing (Novastar, Brompton) for stages and installs.
 Vision & Broadcast Cameras, switching, playback, and 4K video workflows for live and recorded shows.	 Staging & Rigging Staging, structures, and rigging built safely and to spec for every venue.	 End-to-End Delivery Design, pre-production, on-site delivery, and pack-down — the whole job, owned.

HOW WE'RE BUILT

Alltech runs lean by design. We're a boutique, founder-led business that deliberately stays small at the core and scales through a trusted extended network — which is exactly how we keep quality high and overheads low for our premium clients.

 The Core Team A lean internal team who own the business end-to-end: • Director / Founder • Director of Operations & Marketing • Technical Operations Manager • Warehouse & Logistics Manager • Project Manager(s) • Marketing & Growth Coordinator	 The Extended Network Behind the core team sits a wide, trusted network of freelance crew, technicians, and a national contractor base we draw on to scale up for projects and support interstate work. This is how a small team delivers large-scale productions without carrying the overhead of a large permanent workforce — a key part of our commercial model and our value to premium clients.

The EOS Operating System

Alltech runs on **EOS (the Entrepreneurial Operating System)** — the framework from the book *Traction*. It's how we scale sustainably with foundations, not band-aid fixes. In practice, that means:

- **Level 10 Meetings** — a consistent weekly team rhythm to solve issues and stay aligned
- **Rocks** — the priorities each person owns, working on the business and not just in it
- **Scorecards & Growth Trackers** — clear measures of how each role and person is performing and developing
- **Role Blueprints & IDPs** — defined accountabilities and individual development plans, so everyone knows their lane and their growth path

HOW WE ENGAGE CLIENTS

The foundation of our engagement strategy is to move away from hard sells and toward authentic relationship-building and discovery. Three principles guide every client interaction:

Relationship First	All outreach prioritises discovery and relationship-building — understanding a client's challenges and pain points before attempting to sell anything.
Authenticity	Engagement, especially with sensitive or past clients, is genuine — not a generic pitch. We'd rather invite someone into the space and show them what we're doing than push a sales script.
Assignment Selling	We educate prospects with valuable content — case studies, articles, videos — to establish our expertise and keep leads warm between meetings. This is exactly why the marketing function matters so much to the business.

★ OUR VALUES — GROW EPIC

Curious what drives the team and how we show up for each other and our clients? These eight values are the backbone of the culture — they spell GROW EPIC.

 Growth Mindset We are forever students. We love to learn and read, and we desire mastery in our personal and professional development.	 Radical Candour We are radically candid and transparent. We speak directly — but always from a place of high care. Honesty with empathy, never aggression.	 Ownership We take ownership and hold ourselves accountable. We're dedicated, resilient drivers who get sh*t done — and come with solutions, not just problems.	 World-Class Communication We are clear in our communication, always curious to understand, and we apply question-first principles.
 Empathy We lead with empathy. We try to understand where others are coming from before we react, and we treat people as people.	 Psych Safe We create an environment where anyone can raise an issue, ask a question, or be honest without fear. Trust and safety come before everything.	 Inspire We aim to inspire those around us — lifting the standard, bringing energy, and making the people we work with better.	 Coachable We believe no one is stagnant. Everyone is designed for growth, so we stay open to feedback and committed to getting better.

On Radical Candour & Banter

Banter is a real part of our culture — it's part of the AV industry and it's how the team connects. But respect, trust, and psychological safety always matter more. Radical candour means being direct AND caring: like telling a colleague they have spinach in their teeth before a client meeting, rather than embarrassing them or letting them walk in unaware. Direct honesty, delivered with care.

OUR CULTURE

We don't call ourselves a family — you can't pick your family, and families come with baggage. We think of ourselves as a community, or as the Director puts it, a high-functioning sports team: a group of talented people working toward shared goals, who genuinely like each other and have fun doing the work.

Gym, darts & hoops

On-site gym, dartboard, and basketball hoop in the warehouse — for fitness and for fun.

Monthly BBQs

Regular team BBQs and team-building moments to keep the culture connected.

Lunch & Learns

Sessions on the tools and systems we use — like Teamwork and Claude — so everyone levels up together.

The Rhythm of the Work

AV and events don't run 9-to-5. Our peak season runs roughly **September to February** (sometimes stretching into March), when project work is most intense. Events happen at nights and on weekends, so the role asks for flexibility — and overtime on projects is paid accordingly. The quieter months (roughly April–August) are when there's more breathing room for building, planning, and development work.

We work hard during delivery and we protect recovery and flexibility wherever we can. Give and take — that's the deal.

Professional Development

We believe people thrive on growth and stagnate without it — so development is built into how we operate, not bolted on. That includes structured 1:1s, career pathway mapping, internal coaching (including communication coaching), supplier training and certifications, and clear growth paths through our EOS Growth Trackers and IDPs. When people show initiative, ownership, and coachability, we invest in them.

WHAT WE WANT MORE OF

Not all work is equal for us. These are our core business verticals, in priority order — the kind of work we most want to win and be known for. Understanding this is essential for any marketing, content, or sales-enablement work.

Priority	Segment	Description	Example Targets
☆ #1	Corporate Conferences & Events	Multi-day corporate conferences, summits, and internal events at venues like ICC, The Fullerton, Hyatt Regency, or in-office activations.	<i>Adobe Think, IBM Summit, TEDx Sydney, Commonwealth Bank, Adyen</i>
☆ #2	Brand Activations	Experiential events and campaigns for big consumer brands or agencies.	<i>Nike activations, Westfield campaigns, agency experiential teams</i>
☆ #3	B2B — Production Company Partnerships	Supply of LED screens and AV gear (and limited labour) to smaller AV/production companies who don't own the inventory.	<i>Smaller AV houses, boutique production companies, wedding/event companies</i>
#4	LED Screen Sales & Installs	Permanent installations in clubs, pubs, venues, restaurants, and gaming lounges.	<i>Merivale, Star Casino, local bars, RSLs, nightclubs</i>
#5	Government & Council Events	Public activations and community events, usually via tenders.	<i>Coogee Carols, council festivals, seasonal outdoor shows</i>
#6	Education / Universities / Schools	End-of-year showcases, graduations, or permanent AV installs.	<i>UNSW Art Showcase, university AV upgrades</i>
#7	Live Shows (General)	Comedy shows, concerts (within Horton Pavilion scale), and theatre performances.	<i>Carl Barron, Suzi Quatro-level tours, mid-size concert promoters</i>

OUR IDEAL CUSTOMERS

Behind those verticals sit the people we actually sell to and serve. Knowing who they are, what they care about, and who makes the decision is the foundation of all messaging and content.

Type	Who They Are	What They Care About	Decision Makers
Corporate Events & Conference Teams	Large companies running summits, awards, internal conferences	Reliability, brand polish, AV that 'just works'	Event Managers, Marketing Managers, Facilities Managers
Event & Experiential Agencies	Agencies delivering activations or events for big brands	Creative tech execution, seamless delivery, flexible partnership	Producers, Account Directors
Production Companies (B2B)	Smaller AV/production houses lacking inventory	Competitive rates, easy collaboration, trusted supply	Owners, Production Managers
Venues & Hospitality	Hotels, convention centres, restaurants, clubs	Permanent AV fitouts, fast support, trusted maintenance	Venue Managers, GMs
Councils & Government	Local government event departments	Tender compliance, reliability, experience	Events Officers, Procurement Managers
Education	Universities, TAFEs, schools	Budget-friendly quality, maintenance	Operations, Facilities Managers

WHAT MAKES US DIFFERENT

The tech just works Clients don't want to think about the AV — they want it flawless and invisible. We make complicated things look easy.	Lean & premium by design A boutique, founder-led model means no big-company overhead inflating invoices — just senior people who care, backed by a trusted network.	Solutions-focused We do the things others say can't be done. Creative problem-solving and calm under pressure are part of the standard.	Client-first, genuinely We care about the outcome of every job, not just the invoice. Relationships and reputation come before any single sale.
