

Employee Benefits & Perks

A clear, staged benefits guide for team members - with key perks unlocking at 3 months and expanded benefits available after successful completion of 6 months probation.

3 MONTH UNLOCKS POST-PROBATION / 6 MONTH UNLOCKS ROLE-BASED PERKS

Important Note

At Alltech AV, benefits are not just about perks - they are about giving good people the tools, recovery, development and trust to build a serious career in event technology and production.

Some of these benefits are formal entitlements, others are discretionary perks, and which are subject to role, approval, business needs, WHS requirements, budget, and supplier availability.

At Alltech AV, we know the event technology and production industry asks a lot of people: late nights, early starts, physical work, precision under pressure, creative problem-solving, travel, client-facing calm, and technical excellence at speed.

Our benefits are designed around a simple idea: if people show up with accountability, initiative, teamwork and a genuine growth mindset, we want to create the environment, tools, trust and opportunities that help them build a strong career here.

01

Our benefits philosophy

The why behind how Alltech supports its team.

Benefit	What it means	Applies to / notes
Give n' Take	We work in an industry where the rhythm isn't a typical 9-to-5. When people give extra effort during intense delivery periods, we aim to protect recovery, flexibility and fairness wherever possible.	Core philosophy.
Gear is king	We believe access to high-quality equipment helps people learn faster, build confidence and stay excited by the craft.	Especially relevant in AV.
Growth is earned and supported	We create pathways for people who show initiative, coachability, ownership and a love of learning.	Unlocked through performance.
Psychological safety matters	Banter can be part of the culture, but respect, trust and being able to raise issues safely matter more.	Culture standard.

Commercial reality still applies	Some perks are role-based, discretionary or dependent on project flow, utilisation, WHS requirements, budget and business priorities.	Keeps the document honest.
---	---	----------------------------

02

Foundation benefits available from commencement

The baseline support employees can expect from the start, where relevant to their role.

Benefit	What it means	Applies to / notes
Business-provided computer	Employees are provided with a computer at the business expense so they have the right tools to do their work properly.	Role-based equipment allocation.
Role-based phone or device support	Project managers and other roles that require constant work communication may receive a business phone, phone support or approved mobile setup.	As required by role and experience. Foundational benefit usually offered to Senior roles and agreed upon contract. Up for negotiation post 6 months probation in some cases.
Work-related travel expense coverage	Fuel, parking, tolls and other approved work-related travel expenses are covered through reimbursement or booking arrangements.	Must follow expense process.
Safe work systems and WHS support	Access to relevant SWPs, SOPs, risk assessments, inductions and safety guidance so work is done safely and consistently.	Applies to all employees.
Team culture moments	Monthly BBQs, lunch& learns, team-building moments, client/prospect celebration events, team challenges and fun activities designed to keep the culture connected.	Schedule varies with business demands.
On-site gym access	Where available and safe to use, employees may access the on-site gym to support physical maintenance, resilience and injury prevention.	Use must follow site rules and safety expectations.
On-site basketball hoop	Where available and safe to use, employees may use basketball hoop to support physical maintenance, resilience, injury prevention and of course for FUN!	Use must follow site rules and safety expectations.
On-site dart board	Where available and safe to use, employees may take their leisure time by playing some darts.	Use must follow site rules and safety expectations.
On-site printers	To carry out your duties and responsibilities, as well as if you do need to use it for personal reasons at times there are 2 large printers on site as well as	Applies to all employees.

related materials (including laminating supplies).

03

Benefits that unlock at 3 months

For employees who are settling in well, contributing positively and demonstrating trust, care and accountability.

Benefit	What it means	Applies to / notes
Gear Library access	Access to use selected company equipment at the studio and warehouse outside active projects to upskill, test, experiment and learn the tricks of the gear.	Approval required; off-peak only; not for unapproved side gigs.
Studio and pre-visualisation access	Use of the office pre-production and pre-vis editing studio suite, including high-spec monitor, TV screen, speaker system and supporting setup.	Best suited to PM, design, technical and pre-production work.
Structured 1:1 check-ins	Wellbeing, role alignment and career check-ins with the Head of Strategic Operations & Growth / HR to identify blockers, development needs and opportunities.	Includes space to vent, clarify or ask for action.
EOS Rocks and ownership moments	Employees begin contributing to the company operating rhythm through Rocks (aka milestones) by working on the business - not just in the business, scorecards, IDPs, Growth Trackers, key focus areas, clear accountability around business improvement and more.	Company wide as decided with leadership.
Initial career pathway mapping	A practical conversation around skills, natural strengths, role fit, growth areas and what a strong future pathway could look like at Alltech post the completion of the 90-Day Onboarding Plan.	Built with the employee, not handed down blindly.
Internal learning exposure	Opportunity to observe, assist or learn across other departments where it supports the employee and the business.	Manager approval required; workload dependent.
Psychological safety and HR access	A direct, trusted HR pathway where employees can raise concerns, sense-check issues or vent. HR will clarify whether the person wants to be heard, wants guidance or wants something formally acted on.	Confidentiality applies within legal and safety limits.
Bright/Peninsula support access	Where active and enrolled by the business, employees may access relevant Bright/Peninsula supports such as EAP, wellbeing support, e-learning or staff perks.	Subject to Alltech subscription and activation.
Reliable contractor network access	Project-facing roles can lean on Alltech's internal database of trusted contractors around Australia for planning, crewing and delivery support.	For approved business use only.

3-month unlock standard

These benefits are intended for employees who have completed their first 3 months with positive conduct, reliability, care for equipment, respect for systems and a demonstrated willingness to learn. Access can be paused or removed if safety, trust, performance or equipment-care standards are not met.

04

Benefits that unlock after successful 6-month probation

For employees who have shown they are aligned, accountable, coachable and contributing to the next stage of Alltech.

Benefit	What it means	Applies to / notes
Expanded development pathway	A clearer growth plan linked to scorecards, KPIs, role blueprint, strengths, development gaps and future role opportunities.	Reviewed through annual scorecards and regular check-ins.
Paid upskilling pathways	For highly driven employees who show initiative and a genuine growth mindset, Alltech may support relevant training, workshops, supplier training or certification pathways.	Discretionary; approval and business case required.
Industry and equipment training	Potential training with equipment suppliers and industry partners, including relevant LED, audio, control, video, comms or production technology training.	Based on role needs and performance.
Advanced certification support	Potential support for high-value certifications such as L-Acoustics, Barco, Pixelhue, CTS, CTS-D, CTS-I or similar role-relevant credentials.	Not guaranteed; tied to business benefit and employee commitment.
Formal internal mobility	More structured ability to gain experience across departments, support different types of projects or build capability outside the current role.	Must not compromise core responsibilities.
Enhanced recovery-first scheduling	After demanding multi-day bump-in/bump-out periods, Alltech aims to protect reasonable recovery windows wherever practicable and safe.	Subject to rostering, client needs and WHS/fatigue management.
Flexible low-season leave options	Where the business calendar allows, employees may be encouraged to take additional or preferential leave during quieter industry periods such as January or July.	Needs formal approval; confirm whether paid, unpaid or annual leave upon management's discretion based on performance.
Travel bank / travel day arrangements	For interstate or remote work, project/touring days and travel days may be handled differently to reflect the reality of field work and travel load.	Confirm payroll/award compliance before formalising.
Premium travel support	Frequent travellers may be considered for lounge access, upgraded travel support or smoother travel logistics where it genuinely improves recovery and delivery.	Role-based; frequent-travel threshold may be required. Up to the discretion of the director.
Wellness per diem approach	Where per diems apply, Alltech may support healthier choices such as quality meals, hotel gym access or wellbeing-focused travel options.	Project and budget dependent.

Phone and data support	High-data mobile plans or additional data support may be provided where employees regularly tether, download content, work remotely or use data-heavy tools on site.	Role-based and approved as needed.
Premium PPE and comms support	Where role-relevant, employees may receive higher-quality ear protection, custom moulded hearing protection or improved comms/headset support.	Safety and role dependent.

Post-probation unlock standard

These benefits are for employees who have successfully completed probation and are consistently demonstrating Alltech's expected standards: reliability, teamwork, communication, safety, ownership, professionalism and growth mindset.

05

Benefits by category

A simple view of what the package is designed to support.

Technical & gear perks

- Gear Library access for learning, testing and technical play during approved off-peak times.
- Business-provided computer and role-based phone/device support.
- Studio/pre-vis access for project managers, designers and technical planning.
- Access to quality equipment, systems and technical environments that support real-world learning.

Professional development

- 1:1 wellbeing and career check-ins.
- Clear KPIs, role alignment, annual scorecards and development conversations.
- Internal coaching in communication, leadership, sales, marketing, strategic operations and business growth where relevant.
- Potential external training, supplier workshops and certification support for high-performing, high-initiative employees.
- EOS Rocks and business improvement ownership so employees contribute to growth, not just output.

Recovery-first scheduling

- Fatigue-aware rostering after demanding delivery periods wherever practicable.
- Give n' Take approach to balance intense event delivery with recovery and flexibility.
- Travel day / touring arrangements where applicable and compliant.
- Low-season leave planning to encourage rest when the business rhythm allows.

Physical and mental maintenance

- Premium PPE options such as custom ear protection or higher-quality comms/headsets where role-relevant.
- On-site gym access where available and safe.
- Psychological safety pathway through HR with clarity around venting, guidance or formal action.
- EAP/wellbeing/e-learning support where active through Bright/Peninsula or other provider arrangements.
- Team culture initiatives including monthly BBQs, celebrations, challenges and low-pressure connection points.

On-the-road logistics

- Covered work-related travel expenses through reimbursement or direct booking.
- Potential lounge or travel membership support for frequent travellers.
- Wellness-focused per diem choices where applicable.

- Phone/data support for roles with heavy mobile work requirements.
- Internal database of reliable contractors across Australia for approved project planning and delivery.

06

How employees earn and keep access

The perks are generous, but they are built on trust.

Benefit	What it means	Applies to / notes
Reliability	Show up on time, communicate early, meet commitments and protect the team from avoidable surprises.	Core expectation.
Equipment care	Treat company gear, vehicles, tools, laptops, phones and facilities with care and respect.	Access may be paused for misuse.
Safety and compliance	Follow SWPs, SOPs, risk controls, fatigue management, PPE requirements and site rules.	Non-negotiable.
Teamwork and professionalism	Keep communication respectful, constructive and solution-focused - especially under pressure.	Culture protection.
Growth mindset	Be coachable, curious and proactive. The more initiative you show, the more we can invest in your pathway.	Unlocks more opportunity.
Commercial awareness	Use benefits appropriately and with the understanding that client delivery, safety, budget and business priorities still matter.	All perks require judgement.
