

AURÉA, Rhodes Waterfront Residences

Instagram Reel for a Premium Sydney Apartment Development
Creative Marketing Specialist Assessment
Prepared by Culous Yu

1. The Brief

The task was to create an Instagram Reel promoting a premium apartment development in Sydney, with the objective of generating enquiries from buyers and investors. AURÉA is a fictional waterfront development at Rhodes, created to show how the right story, language, and craft can turn a property launch into a stream of qualified leads.

2. The Concept

The name AURÉA draws on the Latin word for **gold**, which sets my creative direction. Every frame sits in a warm amber and golden hour palette on deep, moody tones, a treatment that speaks to premium property and aligns with the HOME789 visual identity. The Reel sells a feeling first and the specifications second, opening on an emotive hook and closing on a single, clear action.

Assuming Chinese buyers are the primary market, the Reel carries an elegant line of Chinese alongside the English, a deliberate signal of cultural warmth rather than a translation for its own sake.

3. Reel Storyboard (30s, 120fps, 1080 x 1920)

1. 0 to 5s | Hook: The line "Wake up to this" lands within the first few seconds over a dusk Sydney skyline, then resolves into the AURÉA wordmark and a "Rhodes Waterfront" kicker.
2. 5 to 9.5s | Living: "Light that follows the day", over a golden hour living room framed by floor to ceiling glass.
3. 9.5 to 14s | Kitchen: "Crafted for the way you live", over a stone island kitchen.
4. 14 to 18.5s | Bedroom: "Wake to the harbour", over a sunlit master bedroom.
5. 18.5 to 23.5s | Amenity: "Rooftop infinity pool" and "A sky lounge for residents", over the rooftop at dusk.
6. 23.5 to 30s | Specifications & CTA: Two & three bedroom residences, priced from \$1.2M, launching Spring 2026, a golden "Register your interest" highlight/button (programmable w/ Meta landing page display), the website, and the Chinese tagline.

4. Deliverables

4.1. The Reel

The Instagram Reel is supplied as the attached MP4. It opens with a 3-second hook, uses animated text and motion on every scene, includes on screen captions, moves through clear scene transitions, carries a cinematic soundtrack scored to the edit, and closes on a prominent call to action (CTA).

4.2. Design Files

The resource and build files are supplied in 2 subfolders:

- **/resource/** holds the 8 premium hero visuals used across the Reel, together with the original assessment brief.
- **/build/** holds the project build files used to produce the Reel, including the text overlay artwork and the assembly scripts.

4.3. Caption Copy

Wake up to Sydney in gold. ✨

AURÉA brings a new landmark to the Rhodes waterfront, where floor to ceiling glass frames the harbour and the city skyline from every residence. Two & three bedroom homes are crafted in stone, timber, and warm light, crowned by a rooftop infinity pool and a residents sky lounge above the water.

Priced from \$1.2M. Launching Spring 2026.

Secure first access to price lists, floor-plans, and a private display suite appointment.

臨水尊邸，誠邀預約。臨水而居，盡覽悉尼繁華。

4.4. Suggested Call to Action

Primary, used on screen and in the caption.

"Register your interest today at AUREA-Rhodes.com.au".

Expanded, for the link in bio or a story sticker. "Register at AUREA-Rhodes.com.au to receive the full price list, floor-plans, and a private appointment at the AURÉA display suite." A single, specific next step with a clear reason to act will convert far better than a general invitation to direct message.

4.5. Music and Audio

The Reel is scored with a warm, cinematic piano and strings instrumental with a gentle build and a soft swell that lands on the final call to action. The bed sits subtly beneath the visuals, opening on a half second fade in and resolving on a fade out across the closing frames.

For a live campaign the bed can be swapped to a licensed commercial track without any change to the edit, and selecting a track from the Instagram trending audio library at upload also extends organic reach.

Thank You For Your Time!
